## Residential Awnings

Hoover Awnings are manufactured with only the highest standards. They are extremely durable and made to withstand south Florida's hot sun, rain and strong winds.

Considering an addition to your home? Awnings offer endless possibilities for enhancing a home's beauty and decor. Awnings add shape, dimension and color, and can be custom-designed to fit any structure's unique character and style.

In fact, by shading your windows and doors, a Hoover Awning can save you up to 25% on cooling bills and create a more comfortable atmosphere that is 10-12% cooler.

Awnings can echo the architecture of a traditional home or they can complement more modern-styled buildings. Hoover Awnings can add drama and pizzaz to an otherwise ordinary facade or they can add softness and color to any size, shape or style of home. Depending on the intent, awnings can assume a wide variety of shapes and sizes, which make design options limitless.

Awnings can extend living space and add comfort to outdoor activities. A fixed awning creates an elegant, upscale outdoor living room; perfect for entertaining guests or simply relaxing with the family.

Awnings that shade your windows, decks and patios create an environment that allows you to enjoy outdoor activities while avoiding south Florida's inclement weather. A canopy over your deck or patio offers a long-term solution to needed space at a lower cost than traditional building methods.

In addition to extending your living space, awnings protect inside furnishings as well as drapes and carpet from fading due to UV rays. Choose from a wide variety of fabrics with many different colors and patterns to fit your needs.
